Connects to any music system

Analog and optical outputs

Bluetooth aptx indicator

#### **SET UP IN SECONDS**

SIMPLE. NO HASSLE. EASY TO USE.

#### **SET UP IN SECONDS**

SIMPLE. NO HASSLE. EASY TO USE.

The B1 Bluetooth Music Receiver is a simple way to get great-sounding wireless music from your device to any music system. Setup and pairing is easy and no custom software, driver, or app is needed.

No network setup, passwords to enter, or buttons to push. Setting them up is so easy you'll be rocking in no time.

Keep your music fun, easy, and sounding great.

### **EXTENDED WIRELESS RANGE**

#### **BLUETOOTH RANGE OF 100+ FEET**

The B1 also has special circuitry and a precision-tuned antenna to extend the wireless range to 100+ feet, providing much more versatility and superior sound.

### **HEAR THE DIFFERENCE**

YOUR MUSIC WILL SOUND BETTER, GUARANTEED.

The audio quality of most Bluetooth products is improving but B1 takes it to a new level by implementing the aptX-HD codec, which offers the highest fidelity Premium Bluetooth audio.

Experience stunning audio with the Audioengine B1 Bluetooth Music Receiver including aptX-HD, a 24-bit upsampling DAC, and extended range.
